

Rochester Hope for Pets

" Oh my goodness. THANK YOU. so much! This means so much to me and to Finn. He is doing well at home now and we are doing everything the doctors recommend so that this never happens again. I can't thank you enough! "

MISSION & HISTORY

Rochester Hope for Pets' mission is threefold: improving the quality of life for Rochester area companion animals by providing grants for veterinary care to pets whose owners are in times of need; assisting veterinary health teams with continuing education, research and new technology for the advancement of companion animal care; and providing support to animal-related nonprofit organizations whose missions support homeless animals in need.

In 2008, a Jack Russell Terrier was picked up by animal control in Rochester, NY. Despite her poor condition, the little terrier's spunk and vigor inspired the veterinarians and staff at the Animal Hospital of Pittsford, who donated the care and services needed to heal the dog and give her a second chance at life. The hospital staff dubbed the little dog "Hope," and helped her find a home once she was healthy. Her success story inspired the shareholders of Monroe Veterinary Associates to envision an organization that could assist other pets in the Rochester area. This vision was realized with the creation of the MVA Hope Foundation in 2008. In 2012, the organization was renamed Rochester Hope for Pets.

"I can not express our gratitude enough for the kindness and compassion of the staff at your organization and the donors."

PROGRAMS & ACCOMPLISHMENTS
